Game-Specific Rules:

1. Objective:

- The objective of the hunt is to collect all pieces of the Indian map by solving clues, completing challenges, and assembling the map.

2. Clues:

- Each location provides a clue to the next. These clues may involve riddles, trivia, or puzzles that must be solved to proceed to the next stage.

3. Finding Map Pieces:

- Teams (3-4 members) must collect map pieces at each treasure location to complete the Indian map.

4. One-Time Completion Rule:

- Each team will take turns completing the puzzle hunt. Only one team can play at a time.

5. Time Limit:

- Each team has a 5-minute time limit to complete the hunt. If the team doesn't finish in the allotted time, their hunt ends immediately.

6. Major Task Completion:

- If no team finishes within the 5-minute time limit, the team that has completed the most tasks and collected the most pieces during that time is declared the winner.

7. Challenges:

○ Some treasure locations will have challenges (e.g., trivia questions, cultural activities, or puzzles). These must be completed in order to move forward and collect map pieces.

8. Fair Play:

○ Teams must not tamper with or hide map pieces meant for other teams. Any form of cheating, including interference with other teams' progress, will result in immediate disqualification.

9. Hints:

○ Teams can request hints if they get stuck on a clue.
○ Using a hint will incur a 30-second penalty, which will be added to the team's total time.

10. Winning:

● If most teams complete the hunt within the 5-minute time limit, the winner will be determined by:

1. The team that completed the most tasks and collected the most map pieces.
2. If there's still a tie, the team with the shortest total time (including any penalty time for hints) wins.

Judging Criteria:

1. Accuracy:

- Correctly solving clues and obtaining map pieces.

2. Task Completion:

3. Time Taken:
